Galvanisation and custom products

Galvanic coatings

Rujzdesign specialises in decorative component coatings, for the visible parts of products that require high attention to detail throughout the galvanising process.

The galvanic surface treatment is a great way to increase the visual appeal of any part and protect it from corrosion and wear and tear.

Rujzdesign also offers an in-house robotic polishing service for your needs.

What do we galvanise?

Our galvanising services are used in a variety of components, such as towel radiators, televisions, motorcycles, oven trays, furniture handles, hooks and decorative elements.

Galvanizacija

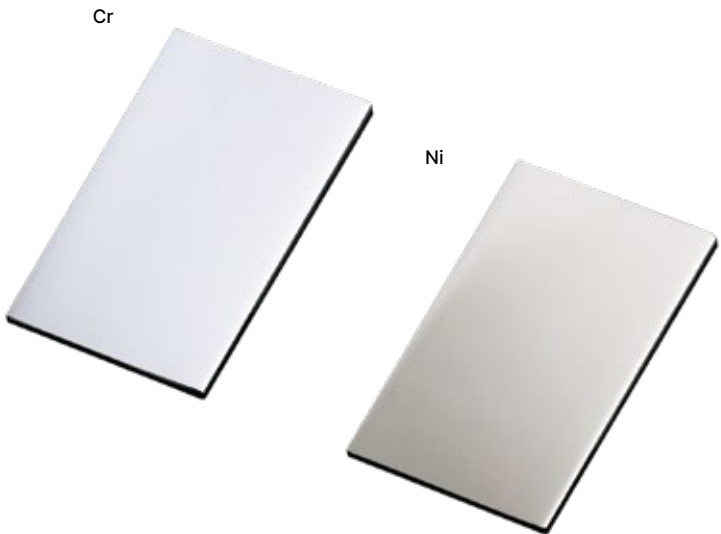

Naše podjetje je specializirano za galvanizacijo izdelkov oziroma njihovih sestavnih delov, ki zahtevajo veliko pozornosti in natančnosti.

Kromirana površinska obdelava je odličen način, kako narediti izdelek vizualno privlačnejši. Svetleča prevleka pa je obenem tudi zaščita pred korozijo in obrabo.

Rd Galvanizacija vam poleg galvanizacije ponuja tudi lastno storitev robotskega ter ročnega poliranja.

Kaj galvaniziramo?

Naše storitve galvanizacije se uporabljajo pri raznoraznih komponentah; radiatorji, televizorji, deli motociklov, pladnji za pečice, ročaji za pohištvo, kljuke, dekorativni elementi.

Custom projects

Custom projects can often require multiple decorative parts in the same material and finish to seamlessly tie together the design. We work closely with our partners to turn their designs into prototypes, using our expertise in aluminium and zamak production to create a wide range of decorative elements.

From small scale in a private residence or motorhomes and caravans to a more expansive fit-out with hotels and restaurants, serial kitchen and bathroom productions and multi-unit fit-outs, our tailored service is the perfect fit if you're looking for bespoke special collections or elements to finish off your design.

Izdelki po naročilu

Delo na prilagojenih projektih pogosto zahteva zagotavljanje več dekorativnih elementov iz enakega materiala in z enako obdelavo. Naše znanje v proizvodnji aluminijastih in zamak izdelkov je prednost za naše partnerje. Razvijamo prototipe na podlagi zasnov naših partnerjev in tesno sodelujemo pri ustvarjanju celotne palete elementov zanje, ne zgolj ročajev in obešalnikov.

Izdelamo lahko posebne kolekcije izdelkov ali elemente za opremo hotelov in zasebnih rezidenc, restavracij, avtodomov in prikolic, kuhinj, kopalnic in drugih prostorov.
